

“Studying at BTI is the best thing I could have done for myself. BTI has given me a valuable purpose: to be able to practice massage and teach. The freedom I have is a total gift. Can it get any better?”

-Sonia Ross, LMT 550 Graduate, Level I Instructor,
Multinational
Champion and
Race Across
America winner

“Learning massage and Access Energy has taught me to listen to what my body needs nutrient-wise. I can now adequately fuel my muscles to supply energy I need for my run. I’ve been able to run harder and longer. In receiving bodywork twice each week in class I’ve relaxed my muscles so I’m not sore anymore. The most profound thing that’s happened to me from receiving and giving bodywork is that I no longer have lower abdomen pain. I’ve tried everything, including doctors, to relieve that and nothing was helpful. I’m now able to go the distance and run harder and longer without the pain.”

-Rebecca Kurta, current 550 Student, Santa Barbara Marathoner
