Testimonials from Veterans

"I was really feeling stuck in an unsatisfying career, then I found out about BTI. Since I've been attending, I've discovered the endless possibilities that are available to us as long as we are open. I finally found something I enjoy doing that I can actually get paid for. I feel more aware of what is going on inside and around my body. As a nurse, studying at SBBTI has really opened my eyes to the abundance of alternative approaches that honor the body's natural healing processes." *Katie Sweeney, 550 hour student, Veteran, Medic US Army*

"Studying at SBBTI has made me feel like a part of something. It's helped me to slow my pace and calm down and be an all around happier person." *Shelley Dellaire, CMT, 1000 hr graduate*

"I am happier now than I have ever been in life and BTI was the place that started it all for me. I am self-supporting. I love working with my clients. It is so nice to work at something with purpose- knowing that I really help people. The GI bill gave me the financial support to transition from working for a paycheck to working at what I love doing. It was so easy- once the paperwork got completed- the benefits were automatically deposited to my account each month. I never get bored with the human body. I'll never run out of things to learn- which I love." *Anna Dato 550 hr grad, Owner of Body Thrive Therapeutic*

I am really grateful that BTI has worked with my busy schedule. I completed the 550 program in two years. Everyone at BTI is very approachable, eager to help and the relaxed environment helps me to retain information. The best part about being a bodyworker is seeing the progress in my clients and knowing that I had some part in their healing and enhanced well-being."

"BTI helped me to learn to feel. In the military they taught us how to distance from our feelings to get the job done.

At BTI I learned to listen, sense the tissue and follow the feelings of the body. It's cool when I tell people that I went to BTI - they know they are going to get a great massage." *~CPL Tony Torres, Operation Iraqi Freedom Veteran, SBBTI 550 hour grad and massage therapist at Massage Envy*

"SBBTI's veteran program is excellent. Your school has a good administrative support for every veteran. Each student has a clear education plan- their course objectives and weekly schedule are easy to identify. Finance statement is easy to identify. Total itemized finance ledger is clear. Test exams are in each student's file. Attendance records are very clear. Many of the schools that I oversee do not have this level of organization. Your school really stands out." *Michael Chang, Veteran*

Testimonial from local employer "We are consistently hiring therapists year round. We could easily hire 20 more therapists in our 5 Tri-County locations. The graduates that come out of Santa Barbara Body Therapy Institute are the most well-rounded, possess the best techniques and draping of all the graduates from schools in the Tri Counties." *Christina Omdahl, owner of 5 Massage Envy Clinics*

We invite you to join us for an extraordinary learning experience with a community of caring students and exceptional instructors. Learn essential methods for personal development, health and healing. Gain vocational skills and experience that lead directly to employment and personal autonomy.
